# WHAT THE "OTHER GUYS" MIGHT DO

Not all fencing companies are the same.

Here's how Absolute Fencing stands out from the competition:

## PERMITS AND COMPLIANCE

- ✗ **The Other Guys:** Promise quick installations (e.g., "next week" or within two weeks) by skipping zoning permits, underground utility checks, and other essential steps. This can lead to fines, penalties, or costly repairs later.
- ✓ **Absolute Fencing:** Handles all paperwork, including zoning and building permits, ensuring your project is fully compliant with local regulations.

## INSTALLATION QUALITY

- ✗ **The Other Guys:** Use minimal concrete, leading to structural failures within a year or two. They often leave dirt piles around fence holes, creating a mess that kills grass and adds cleanup work for homeowners.
- ✓ **Absolute Fencing:** Uses the correct concrete specifications for each fence style, ensuring durability. Our unique installation process removes all dirt from the site, redistributing it to low-lying areas, trees, or mulch beds for a seamless finish. We also clean and inspect the fence to leave your property pristine.

## WARRANTY AND REPAIRS

- ✗ **The Other Guys:** Offer limited warranties (1-5 years) and are often unresponsive when issues arise.
- ✓ **Absolute Fencing:** Provides a limited lifetime warranty on workmanship. If anything happens to your fence, we'll fix it—no questions asked.
- ✗ **The Other Guys:** Are hard to reach for post-installation repairs, leaving you with ongoing problems.
- ✓ **Absolute Fencing:** Prioritizes client needs. Whether it's storm damage, accidental impact, or other issues, we respond quickly to restore your fence and ensure the safety of your family and pets.

## MATERIAL QUALITY

- ✗ **The Other Guys:** Use lower-grade materials from big-box stores, compromising durability and appearance.
- ✓ **Absolute Fencing:** Sources professional-grade materials from trusted manufacturers to guarantee long-lasting quality and performance.

## WORKMANSHIP AND INSURANCE

- ✗ **The Other Guys:** Often rely on subcontractors, which can result in inconsistent work. Many don't carry proper insurance, putting homeowners at risk.
- ✓ **Absolute Fencing:** Employs a fully trained, in-house team to deliver consistent, high-quality work. We are fully insured, including worker's compensation, protecting you from any liability.

"Absolute Fencing absolutely crushed our vinyl fencing project and exceeded our expectations! We knew going into this fencing project that it'd be more complex with the slope in our backyard and they went above and beyond to customize the install while bringing top notch attention to detail and taking their time! Well worth the wait; they're busy for a reason. Can't recommend them enough for your physical fencing project!"

**- Sarah Madilia**

Thank you Absolute Fencing!"

**- Kara Folckomer**

"It was great working with this awesome company. Randi was so helpful and went above and beyond to get the necessary permits. She is such a wonderful person, very personable and easy to work with. The fence is gorgeous and I could not be more pleased. Her husband and coworker did a fantastic job and were both so friendly and willing to answer any questions. I would recommend this company 100%!"

**- Ginger Kelshaw**

"We had a wonderful experience with Absolute Fencing! From our first conversation, we were impressed by their professionalism. Randi helped us with the paperwork for zoning and HOA approval, and she kept in touch with schedule updates through the day of installation. Everything was done with attention to detail, and the yard was left in great shape.

This is primarily because we complete most projects in a day and want to make sure your posts are ready for the weight of the gate.

### PERMIT INFO

With permits most projects carry a lead time of 4 to 6 weeks. This is due to the permit process at your local municipality. Most take up to 4 weeks to issue. Some are done sooner. Most municipalities require a permit. We follow all the rules and regulations regarding fence. Some contractors avoid permits and this results in hefty fines and removal of fences.
